

Model M78 DRYER

75 lb. (34 kg) Capacity – Advanced Microprocessor

TECHNICAL DATA *

Max. Capacity-lb. (kg)	75 (34)
Basket volume-cu. ft. (L)	22.4 (634)
Basket diameter-ins. (mm)	44.5 (1130)
Basket depth-ins. (mm)	24.88 (632)
Basket drive motor-HP	1
Airflow-cfm (cmm)	1,200 (34)
Heat input-btu/hr (kcal/hr)	204,000 (51,408)
Dimensions- (WxDxH):	46.18" x 34" x 84.5" (1173 x 864 x 2146 mm)
Approx. net weight-lbs. (kg)	888 (403)

Features:

Phase 7 advanced microprocessor
Lint monitor
Rotation sensor

Fire Suppression System
Anti-wrinkle feature
Temperature sensor monitoring

Why Purchase Milnor?

- The Advanced Phase 7 control now has a Fire Suppression System, which can sense high heat conditions caused by overheating or spontaneous combustion. It then triggers a water jet system, which virtually eliminates fires by immediately extinguishing the spread of flames. **BENEFIT: Enhanced laundry safety.**
- The M78 has a heat input of 204,000 btu per hour. Big 44.5" diameter basket allows free tumbling and better exposure to hot air for fast drying. **BENEFIT: Speed boosts productivity.**
- Advanced microprocessor control is easy-to-use. Automatic drying avoids wasting energy on loads that are already dry. Control also prompts operators to clean lint drawers. **BENEFIT: Fewer operator errors.**
- Surprisingly, these dryers are more compact than other dryers. They install close to the wall because there's little to service from the rear of the machine. **BENEFIT: Saves space.**
- The cabinet is electrostatically painted inside and out, and all components are painted before assembly for thorough protection. **BENEFIT: Built for long life.**
- Superior product support through local, highly-skilled dealers. **BENEFIT: Faster repairs mean less downtime.**
