MONDO FLEX

GYMNASIUM & MULTIPURPOSE

ATHENS 2004

MONDOFLEX

GYMNASIUM & MULTIPURPOSE

TOP LAYER

Play satisfaction

Optimum energy return compared to poured urethane and PVC

Ideal rotational and translational friction for basketball, volleyball, futsal, handball and badminton

Consistant ball bounce

Ease of maintenance

Outstanding durability

Mondoflex features a full 1,5 mm wear layer compared to thin coatings applied to other products

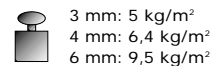

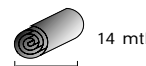

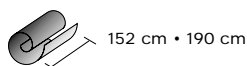

Antibacterial

Permanent fungicidal and bacteriostatic treatment that prevents the growth of microorganisms on and in the flooring.

BOTTOM LAYER

Excellent cushioning to assure safety and performance during play
