

Club Resource Group Appoints Gregory Chura To The Chief Operations Officer Post

TRACY, California – (PRWeb) – October 27, 2008 - Club Resource Group, a leader in the design and manufacturing of high quality locker systems and a respected supplier serving the athletic club, team, spa and municipality environments, announced Gregory Chura has taken the role of Chief Operations Officer (COO) for the California-based company.

Effective immediately, Greg will oversee the day-to-day operations of the company including its strategic initiatives, manufacturing, nationwide installation and facility services. "Greg possesses the expertise and experience necessary to manage all of our manufacturing and service levels nationwide," said Michael Wendt, founder and CEO of Club Resource Group. "Club Resource Group welcomes Greg and I look forward to working with him as we shape the organization for continued growth."

"Club Resource Group is in a prime position to be instrumental in the changing club environment and I look forward to being a part of that industry movement," states Greg Chura.

Greg comes to Club Resource Group from Egis FloorLife where he served as Vice President and General Manager. Prior to Egis, Greg spent eight years with Robbins Floors, Inc., in product management and played a role in new product development.

Club Resource Group

Club Resource Group is a recognized leader in the design and manufacturing of high quality locker systems and supplier of sports performance flooring, steam/sauna, laundry and furniture serving the athletic club, team, spa and municipality environments. Supported by a team of industry veterans with design, operations, engineering and project management expertise, Club Resource Group's products and design influence can be found in the nation's leading athletic club facilities and sports venues. This year, Club Resource Group is expanding its product offerings and introducing a change in brand names from MultiSpace to ClubLine®, a locker, case goods and furniture collection featuring architectural grade materials combined with exceptional craftsmanship.
